

## Paul Revere September Minutes

Thank you to all our loyal members who turned out to hear what Chris Carroll, our Chief Investigator for Mass DPL had to tell us.

Chris filled in all the blanks as to how busy the DPL is. Whether it was good news, or bad news, he told us the way it is.

Chris made it a point that if any of our members have any questions or issues out in the field that he is available to help us. That goes for inspectors as well.

One has to realize that there are over 25,000 licensed electricians in the state. Chris only has a handful of people in his department to keep it in a straight line.

Even though we currently do not have an executive director, Chris assured us that he is available to deal with our concerns.

We would like to thank Bob Venuti for arranging for Chris to be with us last month.

In addition, thank you Chris for taking time to join us at our monthly meeting.

Make sure you do not miss our October 18th meeting, Jeff Simpson from U L will be our guest speaker.

Jeff will share some new materials on; Means of Egress illumination that covers the requirements in the Building Code as well as emergency lighting rules in NEC Article 700 and the associated listing requirements.

Once again, let's fill the room for him

We will have a briefing on what took place at the Eastern Section Meeting for the attendees.

Elections are coming up quickly, if you would like be a member of the board or officer or just want to nominate someone in the Paul Revere Chapter; this meeting is the time to do it.

More details the night of the 18th.

See You There

Rick D'Amato
